

A **free** messaging application to help teachers engage all families through two-way, translated text messages

Simple to use

Teachers set parents' home languages once, and parents don't download anything

Seamlessly translated

Machine and human translations support communication in 20+ languages

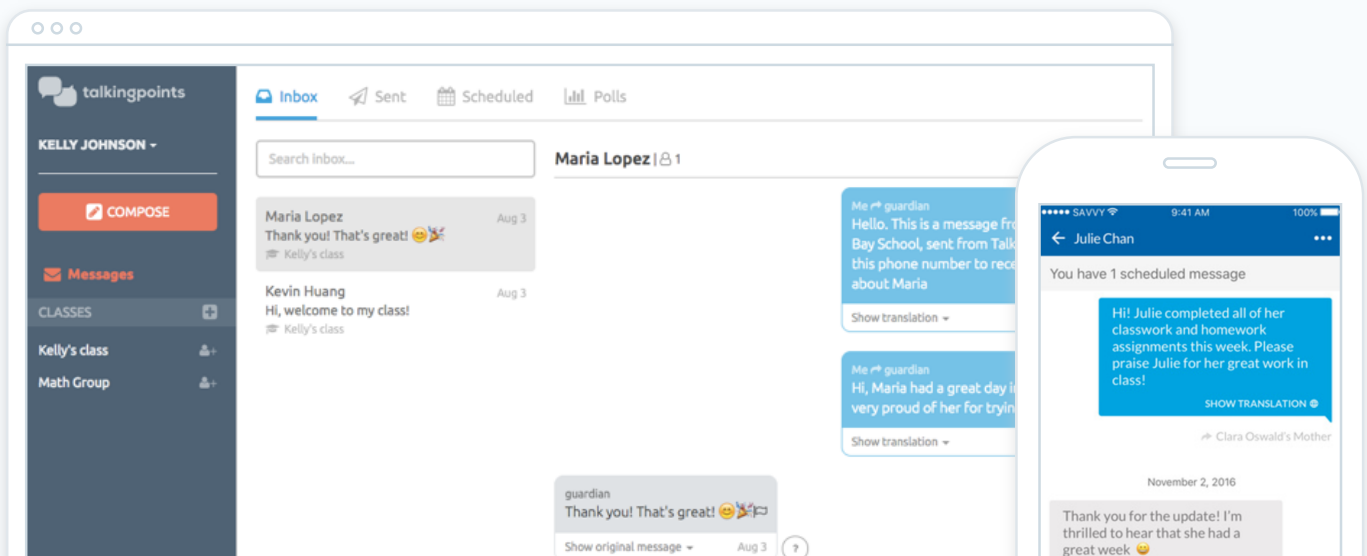

Private and secure

We maintain teacher and parent privacy (we won't share your personal number)

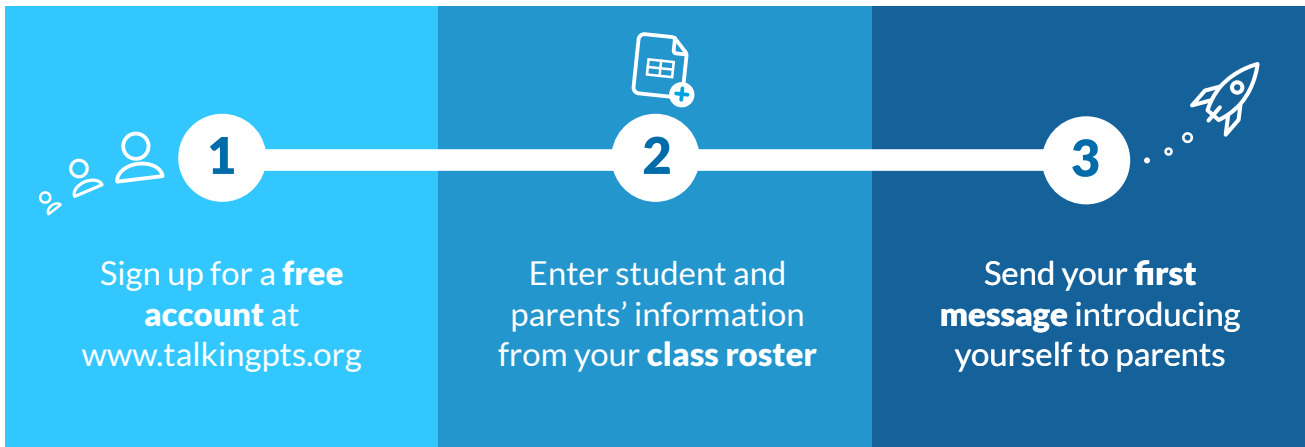

HOW IT WORKS

Compose a message on any device in English, and TalkingPoints will **translate** and send it in your parents' **home languages** via **text message**

Sign up for free at www.talkingpts.org

Getting started is simple!

TalkingPoints has been a game changer for me. I was helping learners gain English, but I knew little about their home life. When I found TalkingPoints, **I was able to immediately connect with families.**

Teachers don't have a lot of time to learn how to use a new tool, but I want educators to know how **easy it is to communicate with parents through TalkingPoints.** I love it and use it everyday!
